FINE JEWELRY

## Fifty years ago,

a man with a talent for design and engineering arrived in New York City with just two hundred dollars in his pocket. Coming from a family in the jewelry business, he began working as an apprentice in the Diamond District to save money for college.

It was here that he developed an obsession for all things jewelry. The artistry, the intricacy, the craftsmanship and — most importantly— the joy it brings to the people that wear it all appealed to his passion for creating something beautiful and meaningful.

He started making pieces in his spare time and was soon selling his signature designs to local jewelers by going door-to-door. His hobby turned into a lifelong pursuit and Simon G. was born.

The rest, as they say, is history. For over four decades, our family-owned company has been delighting people far and wide with timeless jewelry thoughtfully crafted to celebrate all of life's special moments.

## Marvels of design

that transcend time become etched in our consciousness, evoking exhilarating feelings of happiness and profound admiration. From ancient civilizations to the modern world, the foundational design motifs, endless attention to detail and unparalleled craftsmanship of these architectural wonders are a constant source of inspiration for our eternally elegant jewelry.

Concentric circles and spirals, the effortless intertwining of textures and materials, a brilliant harmony of utility and beauty — intricacies that all work together to create something that is greater than its parts. A uniquely dazzling creation that sparks happiness and is destined to be cherished for generations to come.

Every piece that our artisans meticulously craft is imbued with this spirit of designing a masterpiece that will stand the test of time.

## Wonders of nature —

infinite in their majesty and complexity — inspire Simon G. designs in uniquely vibrant and poignant ways.

From the delicate movement of a butterfly landing on a flower petal, to the hypnotic swaying of an autumn leaf just before it falls, to the vast existential significance of a buzzing bee, the beauty of the world around us is echoed in our jewelry.

Our Inspired by Nature Collection features highly complex craftsmanship and captures sublime moments of stillness from the ethereal natural world that is always moving around us. But you'll also find these themes woven in more subtle ways throughout many of our eye-catching pieces.

## Artistic innovation

is a hallmark of the Simon G. approach. We believe that jewelry should be timeless — not just in its appearance, but in its ability to last generation after generation.

In addition to our extremely high standards for workmanship, materials, gemstone sourcing, and the final quality of each and every piece, we continuously strive to enhance our technical capabilities to ensure longevity.

A shining example of this is our patented, highly precise Simon-set design technique, which reimagines the creation of an invisible setting (where diamonds appear to be 'floating' on the surface) by using micro-prongs so that each individual stone is placed more securely and achieves maximum brilliance.

## Everyday moments —

the very essence of joie de vivre — deserve to be celebrated. They can be fleeting, but not if we commit the happiness they bring to memory with a meaningful sentiment.

The joyous clink of a birthday toast; the warm smiles exchanged when marking another year of friendship; the glowing cheer of a holiday get-together; the sweet exhale of achievement after a promotion; a prideful grin after hitting that fitness goal...

Magical moments that transport us to cloud nine are everywhere to be found — and are perhaps the most worthy of celebration so that they don't just quickly pass us by.

All jewelry available in 18k white, yellow and rose gold, as well as platinum. Customization requests are welcome.
